

Noah Williams

Full-Stack Developer

noah@buildit.dev | +1 (512) 555-0123 | Austin, TX | [linkedin.com/in/noahwilliams](https://www.linkedin.com/in/noahwilliams)

PROFESSIONAL SUMMARY

Full-stack developer with 6+ years shipping consumer and developer tools. Fast, pragmatic, and product-obsessed: built features used by 1.2M weekly active users and open-source tooling with 4.1k GitHub stars.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Tinker, Austin, TX

2022 - Present

- Ship end-to-end features across React, Node, and Postgres; own 3 product surfaces used by 1.2M WAU.
- Cut cold-start latency 62% by moving to edge functions and reworking the data layer.
- Built internal CLI and design system adopted by all 8 product squads.

Software Developer | Copper Labs, Remote

2019 - 2022

- Developed a realtime collaboration engine (WebSockets + CRDTs) powering 90K concurrent sessions.
- Contributed to the open-source community; authored 2 libraries with 4.1k combined GitHub stars.

CORE SKILLS

- React
- TypeScript
- Node.js
- PostgreSQL
- Edge Functions
- WebSockets
- Vite
- Tailwind CSS
- AWS
- Open Source

EDUCATION

B.S. in Computer Science

University of Texas at Austin • 2019

OPEN SOURCE

- Author: fast-queue (message queue for edge runtimes)
- Maintainer: component-lib (design system, 2.1k stars)
