- Grafana
- Argo CD
- Python
- Go
- Linux
- Networking
- SRE Practices

PROFESSIONAL SUMMARY

Platform engineer with 9+ years designing reliable infrastructure for high-traffic products. Terraform + Kubernetes + AWS specialist; operate a fleet of 1,400 nodes serving 40K requests/sec with 99.98% uptime.

PROFESSIONAL EXPERIENCE

Staff Platform Engineer | Relay Networks, Denver, CO

2021 - Present

- Own the Kubernetes platform (1,400 nodes, 900 microservices); raised SLO attainment to 99.98%.
- Authored the company's infrastructure-as-code standards (Terraform) adopted across 45 teams.
- Cut deployment lead time from 2 days to 40 minutes via progressive delivery and automated canaries.

Senior DevOps Engineer | Cascade Cloud, Boulder, CO

2017 - 2021

- Migrated 200+ workloads from VM sprawl to managed Kubernetes, cutting infra spend 38%.
- Built a self-serve CI/CD platform; 2,400 pipelines/month with a 99.9% success rate.

EDUCATION

B.S. in Computer Engineering

Colorado School of Mines • 2017

CERTIFICATIONS

- CKA & CKS - Certified Kubernetes (2022)
- HashiCorp Certified: Terraform Associate (2023)
